

CREATIVE HOME IDEAS

132 BARLEY MILL RD., MOORE, S.C. 29369

October 3, 2014

To whom it may concern,

1. Following the inspection report on 801 Mountainview Place lane, Anderson, S.C. describing a support that had come loose in the crawlspace at carport side of the residence. During my inspection I had actually found three supports in the describe area that had come loose which I repaired.
2. Roof repairs have been completed and it appears that roofing life expectancy should be ten years depending on weather conditions.
3. Electrical repairs have been completed and electrical systems are all compliant and in working order.

Thank you,

Randy
